Refrigeration	30-45
Cooking	46-57
Specification tables	58-73
Energy efficiency information	74
After sales support	75

EVERYTHING HAS A REASON

At Zanussi we start the development of all our appliances in the same way, by looking at the needs of the people who are going to use them and creating appliances that will make their lives easier. The new Zanussi range offers a balance between design, aesthetics and convenience.

Make your life easier

All Zanussi appliances have been specially designed with you in mind. Our aim is to make life easier by bringing you the creative solution to your everyday tasks.

Ease of use

Operating panels are designed to be elegant and simple to understand, making them both functional and easy to use.

High quality standards

Interior parts are designed and manufactured to Zanussi's high quality standards, so that you can be sure your appliance will be reliable and functional day after day.

MAKE YOUR LIFE EASIER

Modern lifestyles mean that people now have less free time, especially in the home. We provide appliances that will help them get the most out of their leisure time. So they can enjoy all the beauty life has to offer. This means cookers that are easier to clean, fridges and freezers that keep food fresh for longer, dishwashers that clean efficiently and economically and washing machines that save you time, money and energy.

But it's about more than just performance. The combination of innovation with functional design and beautiful style inspired by our Italian heritage is central to the Zanussi philosophy. It's why we offer a range that extends from the traditional to more modern finishes such as stainless steel.

From understated designs to beautifully sculpted lines, Zanussi offers something for everyone.
